

Aniket Baghel

Software Engineer

baghelab1312@gmail.com | +91 7974415736 | Bengaluru, Karnataka | GitHub | LinkedIn

WORK EXPERIENCE

Sapiens, Associate Software Engineer

09/2025 – 02/2026 | Bangalore

- Contributing to enterprise insurance platform applications; developing backend modules aligned with insurance domain workflows.
- Actively resolving development and production support tickets, including root-cause analysis and functional enhancements.
- Implemented a security enhancement by integrating Rate Limiting and Google reCAPTCHA into the user login flow, strengthening protection against automated malicious access.
- Collaborating with cross-functional Agile teams to analyze requirements and support production releases.

Trippyway, Web Application Developer

03/2024 – 12/2024 | Remote

- Sole Frontend Engineer responsible for designing, developing, and maintaining the entire frontend using React.js and Redux.
- Built reusable UI components and integrated REST APIs to deliver scalable and responsive web applications.
- Improved application performance and user experience.

Coding Ninjas, Web Development Teaching Assistant

10/2023 – 02/2024 | Remote

- Served on the course assessment and project review team for MERN stack curriculum, evaluating applications built with Node.js, Express.js, and MongoDB.
- Resolved 600+ technical issues across backend APIs, database integration, authentication, and debugging, ensuring adherence to clean code and best practices.

EDUCATION

PGDAC, Institute for Advanced Computing and Software Development

02/2025 – 08/2025

Percentage: 85%

B.Tech, Bhilai Institute Of Technology Durg

08/2019 – 06/2023

CGPA: 8.56/10

SKILLS

Programming Languages: Java, JavaScript, SQL, C++, TypeScript

Databases, Cloud & DevOps: MySQL, PostgreSQL, MongoDB, AWS, CI/CD Pipelines, Jenkins, Git

Frameworks & Libraries: Spring, Spring Boot, React.js, NextJS

Software Engineering Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems

PROJECTS

MdToPdf, Markdown to PDF Converter

05/2025

Technologies: Next.js 15, React 19, TypeScript, Tailwind CSS, jsPDF, html2canvas

- Developed a **responsive web application** to convert **Markdown content into high-quality PDF documents**.
- Implemented **real-time Markdown preview** using **React** for instant content rendering.
- Added **file upload support** for .md files and **manual Markdown editing**.
- Built multi-page PDF generation with proper formatting using **jsPDF** and **html2canvas**.
- Designed a **clean, mobile-friendly user interface** using **Tailwind CSS**.

The Quizzer, - Microservices-Based Quiz Platform

07/2025

Technologies: Java, Spring Boot, Spring Cloud, Spring Security, React 19, React Router, MongoDB, MySQL

- Developed a **microservices-based backend system** for an online quiz platform with scalable and modular architecture.
- Implemented **user management, quiz management, result processing, and leaderboard services**.
- Designed and consumed **RESTful APIs** for quiz creation, participation, evaluation, and ranking.
- Implemented **JWT-based authentication and role-based authorisation** using **Spring Security**.
- Built a **responsive and high-performance frontend** using React 19 and Vite 7.
- Integrated frontend with **backend microservices** to ensure **end-to-end application functionality**.

ACHIEVEMENTS

Top Performer

Recognized as a top performing Teaching Assistant at Coding Ninjas.

Problem Solving

Solved **250+ DSA problems** on LeetCode and **950+ questions** total across various platforms.

Certifications

Participant in Google Cloud Skills Boost Program (2022).
